

# My mini-travel book

# Hello !

At the beach or in the mountains, Nyle the Crocodile and all his friends love to go on vacation at Club Med. From flying trapeze, and paddle boarding, to skiing and so many other activities, they'll never stop having fun.

Today, Nyle would like you to meet his friends  
and make some colorful memories !

Sounds like a plan? Amazing!

Now grab your best colored pencils and get ready to answer Nyle's riddles! Let's go!

**LEONA ROSE** 🐼 is a contemporary artist. For this travel book, she created some crazy and colorful jungles inhabited by animals that strangely resemble us (with a tiny extra touch of fun). Leona draws inspiration from her journeys through Asia and South America. Her different travels brought shamanic, bohemian and ethnic influences to her work. And the result is mesmerizing. The huge frescoes she created takes people directly into a parallel universe full of magic. A parallel universe that delights kids. This is why Leona Rose works a lot with NGOs (ex: Casa Guatemala ...) that help hospitals and orphanages. Because her art and her style offer children the sweet escape they need.
